Use the input select button on the VCR or DVD recorder remote or front of the VCR or DVD recorder.. However, even if your camcorder is still working now, no new 8mm/Hi8 units are being made, so it is a good idea to make copies of your tapes for future preservation.. You can watch your tape on TV at the same time it is being copied, just leave the TV set on the channel or input that you normally do when watching a videotape or DVD.

First, press record on the VCR or DVD recorder then press play on the Camcorder This will enable you to copy your tape.. The reason you need to press record on the VCR or DVD recorder first is that it may take a few seconds for the VCR or DVD recorder to start the recording process.. As a result, many consumers have a few dozen or a few hundred 8mm/Hi8 tapes that need to be played back for continued enjoyment, or transferred to more current video formats.. If your VCR or DVD recorder has video inputs on the front and back of the VCR, the back inputs would be line one, AV1, Aux1, or video 1 and the front inputs would be line 2, AV2, Aux2, or video 2.. Put the tape to be copied to VHS or DVD in the Camcorder, and also put a blank tape in the VCR or a blank DVD in the DVD recorder. [Denver Developmental Screening Test Ii Pdf Viewer](#)
